Castlefield B.E.S.T UK Opportunities Fund – Institutional Income

A sub-fund of the Castlefield Funds
Institutional Income Shares, ISIN GB00B1XQNC41
Authorised Corporate Director – Castlefield Fund Partners Limited

Objectives and investment policy

The investment objective of the Fund is to invest primarily for long term capital growth from a portfolio of investments. The ACD's investment policy is actively to invest in those companies, primarily within the UK, where the manager believes there are above average opportunities for growth.

In seeking to achieve the stated investment objective, the Investment Adviser uses a responsible investment research process to identify the universe of securities from which the Fund may invest. The four criteria that need to be evidenced by each investment are reflected in the name of the Fund where "B.E.S.T" indicates Business & financial, Environmental & ecological, Social and Transparency & governance; however equal weighting may not be given to each element of these criteria when screening potential investments.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The coloured area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

The Fund holds equities concentrated both in number and in location in the UK. Equities tend to experience higher volatility than many other asset types such as bonds or money market instruments. Funds concentrated in one geographic location are more vulnerable to market sentiment in that specific location and can carry a higher risk than funds holding more diversified assets.

Funds which hold a limited number of holdings are more exposed to an adverse event impacting on one or more of those holdings compared to more diversified funds.

A more detailed description of the risks identified as being applicable to the Fund are set out in the 'Risk Factors' section of the Prospectus.

The Fund is ranked as a 5 because it has experienced relatively high rises and falls in value over the past five years.

Please note that even the lowest ranking does not mean a risk-free investment.
