

OUR ADVISORY SERVICES

We offer both an **Initial Advice Service** and an **Ongoing Advice Service**.

The key difference is that one is designed to be an assessment of your financial situation at a point in time and the other is designed to provide ongoing assurance that you remain on track to meet your goals.

The Initial Advice Service involves the following stages:

THE INITIAL CONSULTATION STAGE

- Up to one hour, free and with no obligation
- Providing an explanation of how we work with our clients and the likely costs involved
- Briefly reviewing your current circumstances, your objectives, priorities and values
- Discussing and agreeing your risk profile
- Sharing ideas with you about possible options and next steps

Once you've agreed with our proposal, by signing a Fee Agreement, you'll proceed to the advice stage

THE ADVICE STAGE

- Reviewing your existing finances
- Conducting personalised research, report preparation and advice
- Preparing our written recommendations in a Suitability Report, including recommending whether you'd benefit from an ongoing review of your affairs
- Providing necessary supporting documentation

THE IMPLEMENTATION STAGE

- Providing of all the necessary paperwork
- Assisting with its completion
- Submitting applications to product/service providers and tracking the applications
- Confirming the final, agreed strategy to you
- Liaising with other professional advisers as required
- Where appropriate, agreeing to an annual review, via our Ongoing Advice Service

See over the page for the features and benefits of the Ongoing Advice Service.

To be read in conjunction with the brochure called 'Thoughtful Advice for a World of Difference'.

THE ONGOING ADVICE SERVICE

As this is an ongoing service it will provide you with the comfort that our initial recommendations, implemented as the result of our Initial Advice Service, will remain relevant to you over time.

Your financial plan can be amended and fine-tuned to match changes in your lifestyle or changes in investment markets or changes in your own attitude to what's most important to you.

We'll agree which investments and policies you'd like us to look after and then we'll review them with you regularly and recommend any changes we feel are necessary to keep you on track.

Where a new, more complex need arises, it's a simple matter for you to commission us to provide some further, discrete Initial Advice, to ensure that ongoing financial plan remains intact.
